HISTORICAL DATA

This company was founded as a British Marine business in 1835. In 1905, the British Trades Insurance Co., Ltd., and in 1915, the China Fire Insurance Co., Ltd., were merged into this

company. Its home office statement, as of December 31, 1921, shows assets of £5,646,860, a subscribed capital of £1,110,000 and a paid in capital of £444,000. It formerly transacted a surplus line business on the Pacific Coast operating through licensed brokers. In 1917, it was regularly admitted to N. Y. state. It issues and guarantees policies under the name Allied Underwriters' Agency. Deposits in states: N. M., $10,890; Va., $9,900; Ga., $9,800; N. C., $10,890; Ohio, $100,000; N. Y., $450,000.

ADMINISTRATION AND REPUTE: This company does a large volume of business in the United States, and it is very well managed by Marsh & McLellan, of Chicago, United States managers, and Ulric S. Atkinson, assistant United States manager, A.F. Sanford, of New York, is eastern general, and E. G. Whipple. of Chicago, is western general agent. The United States managers maintain office in several of the largest cities of the United States and in Montreal and London. Underwriting and investment results in the last five years: 1923, underwriting loss, $322,319, investment profit, $189,464; 1922, underwriting loss, $293,270, investment profit, $505,136; 1921, underwriting profit, $186,732, investment profit, $842,752; 1920, underwriting loss, $996,805, investment profit, $182,415; 1919, underwriting loss, $595,696, investment profit, $28,063. Rather large underwriting losses have been sustained since entering the United States, and are, for the most part, accounted for by the fact that business volume has rapidly increased and accordingly it has been necessary to set up large required reserves. The underwriting loss was, however, offset by interest earned on reserves and equity in unearned premiums. Largest amount insured in one hazard, gross, $500,000; net $50,000.

BOARD MEMBERSHIPS: Eastern Union, Western Union, Southeastern Underwriters Association, Board of Fire Underwriters of the Pacific, and Rocky Mountain Underwriters Association, National Board of Fire Underwriters.

CLASSES OF INSURANCE WRITTEN: Automobile, bombardment or war risk, earthquake, explosion, farm, fire, inland marine, lightning, ocean marine, parcels post, profits, registered mail, rent, riot and civil commotion, sprinkler leakage, tornado and windstorm, tourists' baggage, use and occupancy, and reinsurance.

HISTORICAL DATA

This company was founded and has operated continuously in France since 1838. It began regularly to write fire insurance in the United States in 1913. Its home office statement on December 31, 1921, showed assets of $14,845,858, the paid up capital being $1,000,000. The company was licensed in New York on February 10, 1913. Deposits in states: N. Y., $200,000; Ohio, $100,000; Ga., $9,800.

ADMINISTRATION AND REPUTE: This company is managed by Fred S. James & Co., an experienced and thoroughly capable and successful firm of underwriters, which is also in excellent standing for its management of the United States business of the Eagle Star & British Dominions, London, and of the General, Paris. These two companies, with the Urbaine, are well known as the F. S. James Group. The Urbaine writes a very substantial volume of business in this country. Underwriters and investment results in the last five years: 1923, underwriting loss, $432,038, investment profit, $158,400; 1922, underwriting loss, $428,706, investment profit, $391,048; 1921, underwriting profit, $40,402, investment profit, $443,037; 1920, underwriting loss, $680,753, investment profit, $145,043; 1919, underwriting profit, $264,031, investment profit, $56,169. Volume of business was considerably reduced in 1921, after having made rapid gains in the previous few years which necessitated the up-building of required reserves being principally responsible for the large underwriting loss of 1920. Loss and expense ratios through a decade show satisfactory averages. The company's reputation for settling loss claims is excellent. Investments are high grade and well secured. Largest amount insured in one hazard, gross, $90,000; net, $18,000.

BOARD MEMBERSHIPS: Western Union, Eastern Union, Southeastern Underwriters Association, Rocky Mountain Underwriters Association, and Board of Fire Underwriters of the Pacific, National Board of Fire Underwriters.

CLASSES OF INSURANCE WRITTEN: Fire, lightning, rent, profits, use and occupancy, motor vehicle, inland navigation and transportation, sprinkler leakage, tourists' floater, tornado, hail, riot, civil commotion and explosion, flood and reinsurance.

HISTORICAL DATA

This company began business in 1902 and its reputation is good. The fact that large returns were made to policyholders in the form of return premiums instead of dividends greatly inflates the loss and expense ratios, had these amounts been paid as dividends, the ratios would have been much smaller. Largest gross and net amounts insured in one hazard, $120,000. The underwriting and investment results for the past five years are as follows: 1923, underwriting loss, $22,663; investment profit, $64,708; 1922, underwriting loss, $64,636, investment profit, $88,733; 1921, underwriting loss, $184,296, investment profit, $129,026; 1920, underwriting profit, $218,977, investment profit, $58,079; 1919, underwriting profit, $157,766, investment profit, $56,346.

CLASSES OF INSURANCE WRITTEN: Fire, automobile, lightning, explosion, reinsurance, sprinkler leakage, tornado and windstorm.

HISTORICAL DATA

This company was organized in 1875 and in addition to accumulating substantial assets and surplus, it has returned good dividends to its policyholders and enjoys an excellent reputation. Its surplus now amounts to nearly one-half of its total assets. The company writes upon both assessable and non-assessable plans and the liability of members on the advance premium plan is the amount of one premium, while on assessment plan policies, the liability is ten times the amount of the deposit. Contingent assets of the company now exceed $3,000,000. The company specializes in the writing of flour mills and grain elevators. In 1921, it took over the business of the National Mutual Reinsurance Association of Mason City and the Iowa Citizens Fund Mutual Association, also of Mason City. The largest amount written in one hazard is $125,000, the largest net amount being $50,000. The company's underwriting and investment profit and loss record for the last five years is: 1923, underwriting profit, $4,782, investment profit, $90,785; 1922, underwriting profit, $15,774, investment profit, $85,605; 1921, underwriting profit, $23,499, investment profit, $79,769; 1920, underwriting profit, $208,276, investment profit, $66,376; 1919, underwriting profit, $168,118, investment profit, $49,711.

CLASSES OF INSURANCE WRITTEN: The company writes automobile reinsurance, fire, hail, lightning, sprinkler leakage, tornado and use and occupancy risks. Its sprinkler leakage and use and occupancy business is written only through the Improved Risk Mutual office in New York.

HISTORICAL DATA

This company was licensed by the insurance commissioner of Massachusetts on November 5, 1908, having been organized under the laws of that state October 30th of the same year. It has a cash capital of $100,000, subscribed for and paid in as a guarantee by the stockholders of the United Drug Company, with which it is identified. The company was formerly the United Druggists Mutual Fire Insurance Company, having changed its name to the present title during 1918. Some of its insurance is written together with the Liberty Mutual Insurance Company of Boston, the latter handling the liability and property damage risks. The executive officials of the company are all men in the drug and chemical industry and are connected with the United Drug Company. The company's policies are the regular standard contracts with mutual conditions included and its assessment liability is limited to a sum the same as and in addition to the premium. No assessment on the stockholders has ever been levied. Largest amount insured in one hazard, gross, $75,000; net, $37,500. The company's underwriting and investment record during the past has been: 1923, underwriting profit, $236,869, investment profit, $25,060; 1922, underwriting profit, $163,871, investment profit, $56,197; 1921, underwriting profit, $176,945, investment profit, $40,371; 1920, underwriting profit, $124,805, investment profit, $15,948; 1919, underwriting profit, $112,853, investment profit, $13,087.

HISTORICAL DATA

This mutual society was organized in 1872, in New York, and has developed from operation on a very small scale to a fairly large institution having at the time of incorporation in 1923, over 40,000 members connected with 50 branches throughout the United States. On December 31, 1923, the insurance in force amounted to $36,282,350.

ADMINISTRATION AND REPUTE: This company insures only household articles and makes a thorough investigation before issuance of contract. A deposit of $1 is required for every $100 of insurance. This deposit remains with the society as long as membership continues. Operating expenses are low. All business transactions are audited weekly. The society employs no agents and no commission is paid for new business. The society's rates of insurance are very low, all members participating. No one except members derives any profit from the society's operation.

CLASSES OF INSURANCE WRITTEN: Fire insurance on furniture and household articles.

UNLICENSED AMERICAN FIRE INSURANCE COMPANIES

In this division there was previously presented information concerning American fire insurance companies which were not licensed by the State insurance officials of the State in which the companies were respectively (nominally) domiciled to conduct insurance business therein. Concerns of this type commonly make broad claims as to the possession of liberal amounts of assets; but as they did not file sworn reports with any State insurance officials, their claimed resources were not subject to scrutiny or verification by any public officia In the absence of such verification, it is usually safe to assume that the assets claimed are either imaginary, or are not owned by the company and are not available for the payment of claims against it. Occasionally a company based upon an old or special charter claims among its privileges thereunder immunity from supervision by the State insurance official of its home State. While such a claim may be made in good faith by an honestly managed company, so many similar claims have been made in the past by concerns which subsequently failed disastrously, that any company failing to report regularly to the State insurance department of its own State is now looked upon with suspicion until it has made some indubitable demonstration of its good faith and its ability and willingness to pay its just debts As a general rule, it is safe to avoid companies which are unwilling to submit to a proper degree of supervision by duly constituted State authorities, or which are unable to secure the license required to be obtained before doing business. However, there are numerous companies which are regularly licensed in one or more States, and which write some policies upon properties located in other States in which they are not licensed. These companies may be perfectly reliable, financially, being willing to accept a few "surplus lines" in certain states, but not desiring to do a general business therein, and hence not caring to go to the expense of establishing agency plants. As they are licensed in one or more States, even though writing an occasional risk in States in which they are not licensed, such companies cannot be classified as "unlicensed," and will be found listed in other divisions.

UNLICENSED COMPANIES SUPPOSED TO HAVE CEASED BUSINESS.

LLOYDS AND RECIPROCAL UNDERWRITERS ASSOCIATIONS

Aside from the Lloyds and inter-insurance associations located in New York State, and which are required to file sworn annual statements with the Insurance Department, there are some which report to other State insurance departments, but a number of such associations do not report to any State Insurance Department. Those which do not report must be judged in accordance with the character and past record of their managers, in conjunction with the financial standing and reputation of the underwriters. The subscribers usually assuming obligations for specified amounts in addition to any initial deposits which they may have made—and in some cases assuming an unlimited additional liability—much depends upon the responsibility of the underwriters, as well as upon their punctuality in meeting obligations. As the liability assumed is individual, and not joint (with one or two exceptions), it is essential to the value of a policy in its entirety that each and every underwriter subscribing thereto shall be good for his share of the aggregate insurance; for if one underwriter proves to be unable to pay his share, it cannot be recovered from the others. The character of the management also counts for a great deal in estimating the value of a Lloyds policy; for, although the Lloyds may have a strong list of underwriters a reckless or plunging manager may involve the concern so deeply in losses that the latter would greatly exceed the maximum liability of the underwriters with consequent loss to the insured. In the past, Lloyds policies have been sold whose underwriters were, in some cases, found to be transient occupants of cheap lodging houses, who cheerfully assumed an unlimited future liability for a five-dollar bill in hand, and would throw in an affidavit that the subscriber was worth one million dollars. Some of the "securities" claimed by certain fraudulent concerns had as little tangible value as the affidavits referred to. These matters are merely cited to indicate the importance of investigating the character and standing of Lloyds associations and companies before accepting and relying upon their policy contracts. There are Lloyds and inter-insurance associations in business to-day which have long and honorable records, and whose policies may be accepted with confidence. Careful discrimination should be exercised between such associations and those which may be classed as totally irresponsible, or those which habitually scale their loss payments.

HISTORICAL DATA

On October 20, 1923, the Insurance Department of Pennsylvania by virtue of its authority appointed the Keystone Indemnity Company, a corporation organized under the Laws of Pennsylvania in 1919 with an authorized capital of $50,000 with $45,500 issued, in the place of the Exchange Operators, Inc., attorney-in-fact for the Automobile Insurance Exchange since organization. The new attorney-in-fact also operates the Keystone Indemnity Exchange, an inter-insurance organization established September 10, 1919.

The Insurance Department of Pennsylvania made an audit of the books of the Exchange Operators, Inc., as of June 30, 1923, and on September 13, 1923, assumed control of the Exchange. Adequate reserves were set up by the Department and a deficit of the attorney-in-fact to the Exchange was disclosed.

The Insurance Department appointed the Keystone Indemnity Company attorney-in-fact and seized the assets of the Exchange Operators, Inc., which included $100,000 guarantee fund, which was held by the Franklin Trust Company, as trustee, in the form of Liberty bonds. This fund, together with the other available assets of the Exchange, is being used to pay the outstanding claims. The Insurance Department of Pennsylvania has required no financial statement of the Automobile Insurance Exchange as of December 31, 1923, inasmuch as the Exchange is being operated by the Keystone Indemnity Company, attorney-in-fact, and is being liquidated under its supervision.

ADMINISTRATION AND REPUTE—On October 20, a new set of books were opened along improved lines and two accounts are being kept separate. The Keystone Indemnity company had deposited cash and given satisfactory guarantees to the Hon. Samuel W. McCulloch, Insurance Commissioner, to protect the policyholders and to carry all policies in force to termination. The Insurance Department on October 20, transferred, on a sale of agreement, all business of the Automobile Insurance Exchange in Michigan and Ohio to the Casualty Association of America, a reciprocal with its home office in Detroit, Mich. The offices of the Automobile Insurance Exchange have been combined with those of the Keystone Indemnity Exchange throughout Pennsylvania and Maryland, with a considerable reduction in overhead costs.

MISCELLANEOUS: The organization of this exchange was begun in June, 1910 by Van A. Webster, who is also the manager for the Southern Underwriters. The Automobile Underwriters of America is a reciprocal underwriting exchange writing all classes of automobile insurance at standard stock company rates, for its members only. This exchange operates in Ill., La., Mo., Okla., Pa., Tenn. and Tex. It was organized in the beginning primarily for the purpose of taking automobile risks which were offered by policyholders in the Southern Underwriters and Lloyds. The general control of the organization is in the hands of a board of members called the Excutive Council, who are elected annually by the stockholders. Subscribers are required to sign a Power of Attorney fixing their contingent liability at an amount equal to the annual deposit on their insurance. This exchange has excess reinsurance contract covering from $5,000 up to $57,500 in any one fire.

The manager's compensation is 30% of subscribers' premium deposits out of which all expenses are paid. A substantial refund has been made each year, and never less than 18%.

MISCELLANEOUS: This is an inter-insurance organization which commenced issuing policies January 1, 1908.

A reserve fund is established by the deposit of $2 for each $1,000 of insurance carried by each subscriber, the minimum reserve fund being $10. A surplus reserve is created by carrying 20% of each year's savings credited to each member until they amount to five times the reserve fund deposit, this sum being credited to the individual subscriber and returnable on its withdrawal. Underwriting expenses are limited to 20% of deposits. It insures only the property of canners and similar and allied interests, and of preserve and pickle packers. This bureau together with the Wholesale Grocery Subscribers compose the Warner Inter-Insurance Bureau which see or other combined financial statement.

The advisory committee is made up as follows: Frank Van Camp, George G. Bailey, Geo. N. Numsen, Wm. R. Roach, L. A. Sears, Lansing B. Warner.

MISCELLANEOUS: This is an inter-insurance exchange, which began business in 1907. It operates among retail druggists and its business is under the supervision of an Advisory Committee consisting of five members, who are elected annually by the subscribers of the exchange. The attorney and manager is H. W. Eddy, who has been associated with the management of the exchange for about nine years. Expenses are limited to 25% of the total premium deposits. Policies are written covering the property of retail druggists. All risks are written at full tariff rates, and its attorney and manager advises us that no lawsuit has ever been entered for or against this exchange, or its subscribers. On December 31, 1922, it had a membership of 13,512. The exchange advises us that since organization an average saving for its members of about 40% of the tariff rates has been shown.

TERRITORY COVERED: Licensed in Ariz., Ark., Idaho, Ill., Ind., Kan., Ky., Mich., Mo., Ohio, Okla., Pa. and Tex.

MISCELLANEOUS: This is an inter-insurance institution which has been in operation since March 1892, and comprises two departments, viz.: The Merchants Underwriters, Kansas City, Mo., and the Western Indemnity Exchange, Columbia, Mo. These groups were formerly segregated and were operated as separate exchanges. The liability of the underwriters is several and not joint. The manager and attorney is Sherman & Ellis, Inc. The operations of this exchange are also under the supervision of a committee of trustees chosen by the subscribers. Trustees must be subscribers or members or officers of firms or corporations which are subscribers. The remuneration of the manager is 25% of the annual premium deposits. The underwritings are limited to first class mercantile and manufacturing properties, widely scattered. The reserve fund is accumulated by retaining to the subscribers' accounts savings in excess of 25%. After the reserve thus accumulated equals the annual deposit on current policies of subscribers, the entire annual saving thereafter effected is refundable. The subscribers' reserve is refundable on his discontinuance as a policyholder.

MISCELLANEOUS: Conflagration losses: Baltimore, 1904, $441,000; San Francisco, 1906, $210,000.

The foregoing statement is a summary of business transacted during the year at Individual Underwriters, an office where contracts for indemnity against loss by fire are exchanged between carefully selected concerns, whose properties are of superior construction and occupancy, and equipped with automatic sprinklers. The single risk and conflagration liabilities of each subscriber are determined approximately by the amount of premium paid in. No initial deposit is required. Annual "earnings" are withheld as an emergency fund until equal to three times the annual premium of the subscriber, 25% of earnings each year being paid in cash until full reserve is accumulated, then all excess is paid annually. For the past ten years these "earnings" have averaged between 65 and 75% of the premiums paid in Underwriting capacity, $1,340, 000 per risk, divided among about 862 subscribers. Average line actually carried per risk, about $400,000

MISCELLANEOUS: Plan: Each member makes an initial deposit of $18.75 for each risk of $6,000 he wishes to insure, or proportionately less deposit for a smaller amount of insurance. This is in addition to the annual premium and is paid but once.

His account is then credited with his proportion of all the premiums written daily. When these credits amount to twice his deposit (not including his deposit), said amount is added to his deposit and is set aside to his account as his deposit and reserve fund.

All amounts credited to his account thereafter, less 20% and his proportion of losses and expenses, are returned to him in dividends at each annual statement.

Should a member withdraw, his deposit and unearned premium on his own policy are returned to him, also the earned portion of all amounts credited to his account.

LUMBERMENS FIRE INDEMNITY CONTRACT, Sandusky, O.

Manager, J. E. Melville.

HISTORICAL DATA

The Lumbermen's Fire Indemnity Contract is a reciprocal organization composed of owners of lumber and woodworking properties located through the United States and Canada. The organization was formed and began business on June 1, 1911. Its operations are limited to the properties of its own members who are fully acquainted with its resources. Manager J. E. Melville states that underwriting operations are being conducted under the protection of an excess reinsurance contract by the terms of which the subscribers are guaranteed against their underwriting accounts showing losses in excess of their respective incomes from premium deposits.

HISTORICAL DATA

This is an inter-insurance organization insuring only woodworking risks and was formerly known as the Manufacturing Wood workers Underwriters. It was organized early in 1909 by Lee Blakemore, formerly connected with the Lumbermens Underwriting Alliance of Kansas City. The attorney was allowed 25% of premiums, to cover all expenses except legal expenses, taxes and expenses of adjustments. The plan provided for the creation of a reserve fund before any saving not exceeding 25% of premium deposits shall be returned to subscribers. This exchange suffered a heavy loss in the Minnesota forest fire of October, 1918, and an assessment of 40%, was made upon the members. This exchange is now understood to be operated in connection with the Home Fire, Little Rock, Ark.

MISCELLANEOUS: The foregoing statement is a summary of business transacted during the year 1922 at New York Reciprocal Underwriters, an office where contracts for indemnity against loss by fire are exchanged between carefully chosen concerns whose properties are of a preferred class and equipped with automatic sprinklers. The single risk and conflagration liabilities of each subscriber are determined approximately by the amount of premium paid in. No initial deposit is required. "Earnings" are withheld as an emergency or guarantee fund until equal to three times the annual premium of the subscriber, 25% of earnings each year being paid in cash until full reserve is accumulated, then all excessive paid annually. For the past ten years these "earnings" have averaged nearly 80% of the premium. Underwriting capacity, $1,343,000 per risk, divided among about 713 subscribers. Average line actually carried per risk, about $500,000.

MISCELLANEOUS: This exchange returns to subscribers al surplus and savings. Collections are made on a monthly basis. Policyholders deposit with the managing company, Olds & Stoller, Inc., 20% of the premium, and the remainder is paid in eight equal payments of 10% each. Each policyholder agrees to pay his proportion of the loss and expense up to, but not exceeding, the amount of its basic premium. The separate account is kept with each policyholder and at the end of the policy year whatever saving is made is returned in cash or credited upon the renewal. The managing company builds up the guarantee fund from its compensation, thereby becoming interested in the underwriting. The subscribers liability is limited to the amount of his basic premium. The officers of the managing company are under a $50,000 bond in addition to the $25,000 bond required by the State. The company covers only risks on automobile blanket reinsurance policies, cover all liability in excess of $5,000 on fire risks and in excess of the $5,000 and $10,000 limits on liability.

TERRITORY COVERED: Licensed in Colo., Ida., Ill., Kan., Mich., Minn., Mo., Okla., S. C. and Utah.

MISCELLANEOUS: This association was organized November, 1, 1906, by J. W. Garvey and is now under the management of Aldridge Corder & Co., who also manages the Lumberman's Exchange and the Reciprocal Underwriters, both of Kansas City. Each member makes an initial deposit of $25.00 for each risk of $5,000 he wishes to insure, or a proportionately less deposit for a smaller amount of insurance. This is in addition to the annual premium and is paid but once. His account is then credited with his proportion of all the premiums written daily. When these credits amount to twice his deposit (but including his deposit), said amount is added to his deposit and is set aside to his account as his deposit and reserve fund. All amounts credited to his account thereafter, less 20 per cent and his proportion of losses and expenses, are returned to him in dividends at each annual statement. Should a member withdraw, his deposit and unearned premium on his own policy are returned to him also the earned portion of all amounts credited to his account.

HISTORICAL DATA

This is a reciprocal underwriters exchange, organized April 1, 1907, writing only in properties protected by automatic sprinkler equipments. The exchange has made good progress and has returned substantial savings to subscribers in every year of its operations. The risks are underwritten by subscribers, now numbering about 400, in pro rata amounts by each of them, without joint liability, in the proportion which the annual premium of each subscriber bears to the annual premiums of all. The underwriting agreement stipulates that the maximum risk assumed by a subscriber shall not exceed a sum equal to one and one-half (1½) times his own premium. In practice his average risk is covered by about 62% of his own premium. A collective statement from April 1, 1907, to December 31, 1923, shows net premium deposits of $1,560,208; net loss, $307,592; expenses, $362,281; allowances and refunds to subscribers, $512,249; reserves at subscribers credit, $457,502. The limit of a subscriber's conflagration liability is a sum not to exceed ten (10) times his own premium. Subscribers must be rated by commercial agencies at not less than $100,000, with highest credit. The maximum line on any single risk, or in any city block, is $200,000. This line is available only on risks on the very highest class. The policies are written at the insurance companies' prevailing rates for the risk, subject to an initial allowance, or dividend, of 25%. No cash subscription is required. Underwriting earnings or savings and interest thereon accrue at the subscriber's credit in the trustees' hands up to a sum equal to four times the subscriber's own annual premium, the excess of which is disbursed to him annually. Retiring subscribers draw down their net earnings in cash at the time of retirement. If a subscriber's current premium, together with his accretion, fails to cover his proportion of the losses, he is required to make a deposit of the deficiency. The funds are in the custody of the trustees, elected annually, who have supervision over the management. The trustees hold an annual premium of Lloyds, London, in the sum of $200,000, reimbursing subscribers for any and all fire losses sustained in the period in excess of $250,000, which is the approximate amount of bureau rate annual premiums. The managers are under $50,000 fidelity bond to the trustees covering the proper accounting for any moneys coming temporarily into their hands. Investment of funds is restricted to short time securities, payable from tax levies. The records and books of account, bank balances, securities, etc., are audited at the end of each quarter by The Audit Co. of New York, which certifies such audit to each of the trustees. Policies are also issued covering use and occupancy, gross profits and sprinkler leakage.

MISCELLANEOUS: This is an inter-insurance organization which began business in February, 1902, and has made excellent progress. The Exchange is under the management of T. H. Mastin and Company, Attorneys, Kansas City, Mo., the title of the attorney-in-fact having been changed from the H. J. Straight Co., on April 1, 1921. T. H. Mastin & Co., are Attorneys for the Consolidated Underwriters of Kansas City, Mo. It writes fire insurance, including use and occupancy, and profits, on mercantile and manufacturing properties equipped with automatic sprinklers. The maximum policy issued is $600,000, no part of which is reinsured. Applicants for membership must be rated commercially at $100,000 or over and have high credit. The Exchange had 663 subscribers at the close of the year 1922. They have accumulated a substantial surplus and appear to be operating on a sound basis. Sprinklered risks only are written.

UNLICENSED FOREIGN FIRE AND MARINE INSURANCE COMPANIES

In the following pages will be found information relating to foreign fire and marine insurance companies which are known or reported to be writing insurance upon American risks, either directly, through brokers, or by reinsurance arrangements with admitted companies, although we believe that none of them is licensed to transact fire or marine insurance in any of the United States. Few of these companies have any funds in this country, aside from premium balances, none of them, we believe, having a deposit with a State insurance department. The statements presented in this division are, therefore, abstracted from the companies' home office reports, which embrace their transactions in all countries. Care should be taken, when purchasing surplus insurance from foreign unadmitted companies, to deal only with those whose American correspondents are reputable and reliable, and who may be depended upon to safeguard, as far as possible the interests of American policyholders. As it is necessary, in case of the non-payment of a loss by such a company, to sue the company at its home office (unless it voluntarily submits to the jurisdiction of American courts), it is obvious that, even if such a suit is successful it is likely to prove a long, wearisome and expensive proceeding. In the case of a policy guaranteed by several companies, a separate suit would have to be entered at the home office of each company. Under these circumstances, it is well to insist upon having some prior knowledge not only as to the company's responsibility at home, but also of the ability and willingness of its American correspondent to meet current losses without undue delay or litigation, before accepting the policy of such a company.

Although Lloyds, London, Eng., is listed herein as unlicensed, a few of the numerous groups of underwriters at Lloyds are licensed in Illinois.

LLOYD'S, London, Eng.

Organized, 1726. Incorporated by Act of Parliament 1871.

Lloyd's is an association of underwriters in the City of London. Its name is derived from a Coffee House kept by Edward Lloyd in Tower St. in the 17th century, where underwriters met to transact business. In 1692 Lloyd's Coffee House was removed from Tower St. to Lombard St.; and in 1774 Lloyd's left the Coffee House in Lombard St. for premises in the Royal Exchange where it has since remained. The war, which lasted from 1775 with but short pauses till 1815, tending to attract marine insurance to Great Britain from all parts of the world, and raised Lloyd's to the high position it has since held.

In 1810, parliament appointed a committee to inquire into the affairs of the institution. From this inquiry Lloyd's emerged with credit, and has continued to assist in the promotion of every measure which might aid in the preservation of life at sea, the prevention of fraud in connection with marine insurance, and the rapid collection and distribution of maritime intelligence.

In 1871, Lloyd's was incorporated by act of parliament, but does not, as a corporation, undertake insurance business. This is conducted solely by its members on their own account; and so long as they conform to the rules of the society, they are free to follow their individual views. Lloyd's is, in fact, a great market for insurance. Candidates for election as members are required to satisfy the committee as to their means, and in all cases to deposit in the names of trustees a sum not less than £5,000, as additional security for liabilities incurred on account of marine and transport risks. The aggregate amount thus placed at the disposal of the committee of Lloyd's is very large, but in no way represents the total capital possessed by the Underwriting Members of Lloyd's. In addition every Underwriter, transacting Non-Marine business at Lloyd's has complied with the Assurance Companies Act, 1909, the requirements of which are as follows:

(*a*) All premiums received by or on behalf of the underwriter in respect of fire and accident insurance or re-insurance business carried on by him, either alone or in conjunction with any other insurance business for which special requirements are not laid down in this schedule, shall without any apportionment be placed in a trust fund in accordance with the provisions of a trust deed approved by the Board of Trade;

(*b*) He shall also furnish security to the satisfaction of the Board of Trade (or, if the Board so direct, to the satisfaction of the committee of the association), which shall be available solely to meet claims under policies issued by him in connection with fire and accident business and any other non-marine business carried on by him for which special requirements are not laid down in this schedule.

The security may be furnished in the form of either a deposit or a guarantee, or partly in the one form and partly in the other.

The amount of the security to be furnished shall never be less than the aggregate of the premiums received or receivable by the underwriter in the last preceding year in connection with such fire and accident and other non-marine business:

(*c*) The accounts of every underwriter shall be audited annually by an accountant approved by the committee of the association, who shall furnish a certificate to the committee of the association and to the Board of Trade in a form prescribed by the Board of Trade.

The business of Lloyd's as a corporation, and of the committee as its executive, is to conduct the affairs of Lloyd's in its corporate capacity, and to guard, as trustees, the corporate funds and property.

English legislation requires all underwriters as well as insurance companies transacting such business to provide security for various classes of insurance, such as life, fire, accident, employer's liability and bond investment.

The Assurance Companies Act, 1909, relates to these classes of insurance, and although the Act did not begin to operate until July 1, 1910, the majority of Underwriters at Lloyd's had already complied with its requirements before that date, and for years past have provided such security as is now legally necessary in connection with the class of business they transact.

The Employers' Liability Insurance Companies Act, 1907, which came into operation on January 1, 1908, provided that every underwriter shall deposit and keep deposited, in such manner as the Board of Trade may direct, a sum of £2,000, and that he shall furnish accounts annually to the Board of Trade exactly in the same manner as the companies transacting similar business. This deposit has been provided by all members of Lloyd's who engage in this class of insurance business. When the premium income exceeds the amount of the deposit, additional security is provided by Lloyd's Underwriters for the amount of such excess. The Employers' Liability Insurance Companies, Act, 1907 was incorporated in the Assurance Companies Act, 1909.

By these Acts Lloyd's is recognized by the Board of Trade as a regular market for fire and other non-marine insurance business, and the fact of such recognition is regarded as a guarantee of the soundness of the business transacted at Lloyd's.

Various groups of Lloyd's underwriters accept fire insurance risks in the United States through different brokerage houses in the United States. Claims under such policies are usually settled without difficulty, although if suit should become necessary, each underwriter might have to be sued in the English courts, but the practice is for all to agree to abide by the decision of the suit against a single underwriter. Policies written by Lloyd's underwriters upon American risks generally contain warranty that some specified company carries a given line on the same risk at the same rate and in the same form. Property owners in the United States who accept Lloyd's policies should therefore be careful to see that all warranties in such policies are properly observed.

The form of fire policy used by Lloyd's underwriters is as follows:

LLOYD'S FIRE POLICY

BE IT KNOWN THAT

paid Premium or Consideration to Us, who have hereunto subscribed our Names to Insure from Loss or Damage by Fire and /or Lightning.

From the day of
To the day of

NOW KNOW YE, that we the insurers do hereby bind ourselves, each for his own Part, and not One for Another, our Heirs, Executors, Administrators and Assigns, to pay or make good to the said Assured, their Heirs, Executors, Administrators and Assigns, all such Damage and Loss by Fire and /or Lightning, within seven days after such loss is proved; and that in proportion to the several sums by each of us subscribed against our respective Names, not exceeding the respective Sums aforesaid; as may happen to the subject matter of this insurance, or any part thereof, during the continuance of this policy.

No claim to attach to this Policy for Loss or Damage resulting from War, Insurrection, Riots, Civil Commotion or Military or Unsurped Power.

This Policy does not cover fire or other damage occasioned by explosion, except by Explosion of Boilers used for domestic purposes or of Illuminating Gas.

If the assured shall make any claim knowing the same to be false or fraudulent as regards amount or otherwise, this Policy shall become void, and all claim thereunder shall be forfeited.

IN WITNESS whereof We, Underwriting Members of Lloyd's have subscribed our Names and Sums of Money by us Insured.

Dated in London, the day of
One Thousand Nine Hundred and day of

Conflagration losses: Baltimore, 1904, $147,500; San Francisco, 1906, estimated, $3,000,000 (all underwriters).

As bogus Lloyd's, London, policies have been offered in this country, care should be taken to deal only with reliable houses when procuring such insurance.

The State Insurance Department of Illinois requires various groups of underwriters licensed in that State to file, as a part of their annual statements, data concerning their entire business in the United States, together with a certificate from the proper official of the Board of Trade in London, England, to the effect that each group has complied with the laws of the United Kingdom governing such Lloyd's associations.

Brokers accepting surplus line risks in the U. S. through Lloyd's of London: Starkweather & Shepley, Inc., Providence, R. I., New York and Chicago; R. W. Hosmer & Co., Chicago, Ill.; Weed & Kennedy, N. Y. (outside N. Y. State), Marsh & McLennan, Chicago, Ill.; A. F. Shaw & Co., Chicago, Ill., F. R. Thompson, Chicago, Ill.; Fred S. James & Co., New York and Chicago, Ill.; O. Rey Rule, Los Angeles, Cal.; Hubert V. Burrows, Chicago, Ill.; W. B. Brandt & Co., Inc., San Francisco (formerly Kahn, Feder & Brandt); Lumber Insurers, General Agency, New York; Squire Co. of Illinois, Chicago; Herrick, Auerbach & Vastine, Chicago; A. M. Bender, San Francisco; Paul M. Nippert Co., San Francisco; Barton & Ellis, Boston; Insurance Agency Co., St. Louis.

Lloyd's is also an immense organization for the collection and distribution of marine intelligence, which is published daily in "Lloyd's List." This paper, originally established in 1696 as "Lloyd's News," dates from 1726, and is the oldest newspaper in Europe, with the exception of the "London Gazette." The intelligence department has developed continually under the influence of steam and electricity, and this process keeps pace with the opening of new ports and the increased means of communication. The information is supplied by Lloyd's agents on every coast in the world, who, in written lists, or by telegram, report the arrival and departure of, and casualties to, vessels within their districts. In this connection the value of Lloyd's Signal Stations is very great, not only to underwriters, but also to merchants and shipowners, as it is frequently an advantage that a vessel should be intercepted off the coast and ordered to its port of destination. Shipowners in this way often have the earliest intimation of the arrival of their ships. Vessels arriving off outlying signal stations often bring important intelligence as to derelicts and wrecks passed on their voyages, as well as information of vessels in distress requiring assistance, and overdue vessels arriving on long voyages are reported at these stations.

LLOYD'S, London, Eng.—*Continued.*

MEMBERS OF VARIOUS GROUPS OF NON-MARINE UNDERWRITERS AT LLOYDS

The undermentioned agents have deposited with the Committee of Lloyd's Guarantees and or other security in respect of any claims which may arise on Policies other than Marine and Transport, Life Assurance, Employers Liability Insurance and Bond investment underwritten by their respective Groups, as specified below, between January 1 and December 31, 1923.

STANDARD SHORT RATE SCALE FOR COMPUTING EARNED PREMIUMS

AS ADOPTED BY NATIONAL BOARD OF FIRE UNDERWRITERS.

This table has been adopted for use in territory covered by the following named organizations: Eastern Union, New England Insurance Exchange, Underwriters Association of the Middle Department, Underwriters Association of the District of Columbia, New York Fire Insurance Exchange, Board of Fire Underwriters of Allegheny County (Pa.), Philadelphia Fire Underwriters Association, Philadelphia Suburban Underwriters Association, Association of Fire Underwriters of Baltimore and Insurance Association of Providence (R. I.), and also for use in Arkansas, New Jersey and Texas.

The National Board Table with a few slight variations is also used in South-Eastern Underwriters Association territory. It has been adopted substantially by the Western Union for use in its jurisdiction in all states (including Colorado, Wyoming and New Mexico) except Iowa and Wisconsin (see separate Western Union tables).

RULE—Take the percentage indicated in scale opposite the period the risk is to run on the premium for the year or term at the given rate, and the result will be the premium to be retained in case of cancellation, or to be charged in case of short risk.

EXPLANATION.—When a company cancels a policy it returns pro rata premium. When a policyholder cancels, this table is used, so that the company shall only return the pro rata premium less the expense of getting the business.

WESTERN UNION SHORT RATE TABLE FOR ONE YEAR POLICIES

Adopted December 1, 1920

The Western Union has adopted substantially the National Board Short Rate Scale, which has been promulgated in all States in their jurisdiction, except Iowa and Wisconsin, the main difference between the National Board and the Union tables being that the Union table for periods less than one year is an "everyday" table, and that it makes no provision for business written at two rates for three years and three rates for five years, as term risks must be written at two and one-half rates for three years, and four rates for five years.

NOTE.—When a policy has been in force for a longer period than one of those named in the following short rate tables, the next higher percentage must be taken in computing the earned premium. A lower percentage, or the average of the lower and higher, must not be used.

(D) Short Rate Table for Cotton Gin Buildings and Machinery and Gin Products therein (except cotton in bales on gin yards, platforms, under sheds, in warehouses or in the open, to which Standard Short Rate Table shall apply).

No risk shall be taken on gin buildings and machinery for a less period than six months, for which term the Gin Short Rate Table charges shall apply.

No risk shall be taken on gin products contained in gin for a less period than two months, for which term Gin Short Rate Table charges shall apply.

To ascertain Rate chargeable, multiply Annual Rate by figures opposite the month in which the Insurance is taken and under the number of months for which Insurance is required and divide by 100; broken periods, in excess of whole months, may be calculated pro rata of the additional percentage chargeable for the next month.

For Periods less than one month determine the rate for one month by the above table, and take the percentage proportion given in the following table under the number of days for which the insurance is required.

Days	1—2	3—4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30

NOTABLE CONFLAGRATIONS IN THE WORLD'S HISTORY

Even before men began to congregate and build cities, there existed the danger of prairie and forest fires; but these, except in a minor way, were not especially destructive of other property. When cities had been built and many thousands of people came to be housed within a small area, the danger of fire and its capacity for doing harm to men and their property were greatly augmented; and as cities increased in size, the fire hazard and the accumulated values subject to destruction were both correspondingly multiplied. During the last four thousand years many cities have been swept by fire, some of them several times; and some have been practically obliterated. Below will be found a list, compiled from various sources, of some of the more important fires of history, comprising those most notable because of the values or lives destroyed, or for some peculiar reason. The list of fires due to the World war in 1914, 1915, 1916, 1917 and 1918 is necessarily incomplete:

But warranted as follows:

Upon the body, tackle, apparel, stores, ordnance, munitions, artillery, boats, and other furniture, boilers and machinery of the Steamship call the.....S. S. or by whatsoever name or names the said Vessel is or shall be named or called; beginning the adventure upon the said Vessel, etc., as above, and so shall continue and endure during the period aforesaid, as employment may offer, in port and at sea, in docks and graving docks, and on ways, gridirons and pontoons, at all times, in all places, and on all occasions, services and trades whatsoever and wheresoever, under steam or sail; with leave to sail with or without pilots, to tow and be towed, and to assist vessels and/or craft in all situations and to any extent, and to go on trial trips. With liberty to discharge, exchange and take on board goods, specie, passengers, and stores, wherever the Vessel may call at or proceed to, and with liberty to carry goods, live cattle, etc., on deck or otherwise, but warranted free of any claim in respect of deck cargo. Including all risks of docking, undocking, changing docks, or moving in harbor and going on or off gridiron or graving docks as often as may be done during the currency of this Policy.

The said Ship, etc., for so much as concerns the Assured, by agreement between the Assured and Assurers in this Policy, are and shall be valued at as follows:

Hull, tackle, apparel, furniture, etc.....$

Boilers, machinery, etc., and everything connected therewith.....$

Donkey boilers, winches, cranes, windlasses, steering gear, and electric light apparatus, shall be deemed to be part of the hull and not part of the machinery. Refrigerating machinery and insulation appertaining thereto not covered unless expressly included in this Policy, or unless the property of the owners of the vessel.

The Insurers to be paid in consideration of this insurance.....dollars, being at the rate of.....per cent.

Warranted that the amount insured for account of the Assured and/or their managers on disbursements, commissions or similar interests "policy proof of interest" or "full interest admitted" or on excess or increased value of hull or machinery however described shall not, except as indicated below, exceed 15% of the insured valuation of the vessel, but the assured may in addition thereto effect "policy proof of interest" or "full interest admitted" insurance on any of the following interests:

Rate % _____

Premiums (reducing or not reducing monthly) to any amount actually at risk, and

Freight and/or Chartered Freight and/or Anticipated Freight and/or Earnings and/or Hire or Profits on Time Charter and/or Charter for series of voyages for any amount not exceeding in the aggregate 25% of the insured valuation of the Vessel; and if the actual amount at risk on any or all of such interests shall exceed such 25% of the insured valuation of the Vessel, the Assured and/or their managers may, without prejudice to this warranty, insure whilst at risk the excess of such interests reducing as earned.

Provided always that a breach of this warranty shall not afford underwriters any defense to a claim by mortgagees or other third parties who may have accepted this policy without notice of such breach of warranty, nor shall it restrict the right of the Assured and/or their managers to insure in addition General Average and/or Salvage Disbursements whilst at risk.

Touching the Adventures and Perils which we, the said Assurers, are contented to bear and take upon us, they are of the Seas, Men-of-War, Fire, Enemies, Pirates, Rovers, Thieves, Jettisons, Letters of Mart and Counter-Mart, Surprisals, Takings at Sea, Arrests, Restraints and Detainments of all Kings, Princes and Peoples, of what nation, condition or quality soever, Barratry of the Master and Mariners, Explosions, Riots, or other causes of whatsoever nature arising either on shore or otherwise, causing Loss of or injury to the Property hereby insured, and of all other Perils, Losses, and Misfortunes that have or shall come to the Hurt, Detriment, or Damage of the said Ship, etc., or any part thereof. And in case of any Loss or Misfortune, it shall be lawful for the Assured, their Factors, Servants, and Assigns, to sue, labor, and travel for, in, and about the Defense, Safeguard, and Recovery of the said Ship, etc., or any part thereof, without prejudice to this Insurance to the Charges whereof the Assurers will contribute according to the Rate and Quantity of the sum herein assured. And it is expressly declared and agreed that no act of the Insurer or Insured in recovering, saving or preserving the property insured shall be considered as a waiver or acceptance of abandonment.

This insurance also specially to cover (subject to the free of average warranty) loss of, or damage to hull or machinery, through the negligence of Master, Charterers, Mariners, Engineers, or Pilots, or through explosions, bursting of boilers, breakage of shafts, or through any latent defect in the machinery or hull, provided such loss or damage has not resulted from want of due diligence by the Owners of the Ship, or any of them, or by the Manager. Masters, Mates, Engineers, Pilots, or Crew not to be considered as part owners within the meaning of this clause should they hold shares in the steamer.

And it is further agreed, that if the Ship hereby insured shall come into collision with any other Ship or Vessel, and the Assured or Charterers shall in consequence thereof become liable to pay, and shall pay by way of damages to any other person or persons any sum or sums not exceeding in respect of any one such collision the value of the Ship hereby Insured, we, the Assurers, will pay the Assured or Charterers such proportion of such sum or sums so paid as our subscriptions hereto bear to the value of the Ship hereby Insured. And in cases where the liability of the Ship has been contested with the consent in writing of a majority of the Underwriters on the hull and/or machinery (in amount) we will also pay a like proportion of the costs thereby incurred or paid; but when both Vessels are to blame, then, unless the liability of the Owners or Charterers of one or both of such Vessels becomes limited by law, claims under the Collision Clause shall be settled on the principle of Cross-Liabilities as if the Owners or Charterers of each Vessel had been compelled to pay to the Owners or Charterers of the other of such Vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the Assured or Charterers in consequence of such collision; and it is further agreed that the principles involved in this clause shall apply to the case where both Vessels are the property, in part or in whole, of the same Owners or Charterers, all questions of responsibility and amount of liability as between the two ships being left to the decision of a single Arbitrator, if the parties can agree upon a single Arbitrator, or failing such agreement, to the decision of Arbitrators, one to be appointed by the managing Owners or Charterers of both Vessels, and one to be appointed by the majority (in amount) of Underwriters interested in each Vessel; the two Arbitrators chosen to choose a third Arbitrator before entering upon the reference, and the decision of such single, or of any two of such three Arbitrators, appointed as above to be final and binding. Provided always that this clause shall in no case extend to any sum which the Assured or Charterers may become liable to pay, or shall pay for removal of obstructions under statutory powers, for injury to harbors, wharves, piers, stages, and similar structures, consequent on such collision, or in respect of the cargo or engagements of the Insured Vessel, or for loss of life, or personal injury. And provided also that in the event of any claim being made by Charterers under this clause they shall not be entitled to recover in respect of any liability to which the Owners of the Ship, if interested in this Policy at the time of the Collision in question, would not be subject, nor to a greater extent than the Shipowners would be entitled in such event to recover.

And it is further agreed that in the event of salvage, towage, or other assistance being rendered to the Vessel hereby insured by any Vessel belonging in part or in whole to the same Owners or Charterers, the value of such services (without regard to the common ownership of the Vessels) shall be ascertained by arbitration in the manner above provided for under the Collision Clause, and the amount so awarded so far as applicable to the interest hereby insured shall constitute a charge under this Policy.

General Average and Salvage Charges payable in accordance with York-Antwerp Rules, 1890, if so provided for in the contract of affreightment. As regards matters not provided for in the York-Antwerp Rules, 1890 (when the contract of affreightment provides for such rules), and also when the contract of affreightment does not provide for such rules, General Average and Salvage Charges shall be payable in accordance with the laws and usages of the United States. Provided always that when an adjustment according to the laws and usages of the port of destination is properly demanded by the owners of the cargo, General Average shall be paid in accordance with same.

No claim shall be allowed in respect of scraping or painting the Vessel's bottom except as provided in Rule of Practice VIII of the Association of Average Adjusters of the United States.

Grounding in the Panama Canal or in the Suez Canal or in the Manchester Ship Canal or its connections, or in the River Mersey above Rock Ferry Slip, or in the River Plate (above Buenos Aires) or its tributaries, or in the Danube, Demerara, or Bilbao River or on the Yenikale or Bilbao Bar, shall not be deemed a stranding.

Average payable on each valuation separately or on the whole, without deduction of thirds, new for old, whether the average be particular or general.

In no case shall Underwriters be liable for unrepaired damage in addition to a subsequent total loss sustained during the term covered by this Policy.

In ascertaining whether the Vessel is a constructive total loss the insured value shall be taken as the repaired value, and nothing in respect of the damaged or break-up value of the vessel or wreck shall be taken into account.

In the event of total or constructive total loss, no claim to be made by the Underwriters for freight, whether notice of abandonment has been given or not.

Notwithstanding anything herein contained to the contrary, this Policy is warranted free from particular average under 3 per cent, or unless amounting to $4,850, but nevertheless when the Vessel shall have been stranded, sunk, on fire, or in collision with any other Ship or Vessel, Underwriters shall pay the damage occasioned thereby, and the expense of sighting the bottom after stranding shall be paid, if reasonably incurred, even if no damage be found.

The warranty and conditions as to average under 3 per cent to be applicable to each voyage as if separately insured, and a voyage shall be deemed to commence at one of the following periods to be selected by the Assured when making up the claim, viz. at any time at which the Vessel (1) begins to load cargo or (2) sails in ballast to a loading port. Such voyage shall be deemed to continue during the ensuing period until either she has made one outward and one homeward passage (including an intermediate ballast passage, if made) or has carried and discharged two cargoes, whichever may first happen, and further, in either case, until she begins to load a subsequent cargo or sails in ballast for a loading port. When the Vessel sails in ballast to effect damage repair, such sailing shall not be deemed to be a sailing for a loading port although she loads at the repairing port. In calculating the 3 per cent above referred to, particular average occurring outside the period covered by this Policy may be added to particular average occurring within such period, provided it occur upon the same voyage (as above defined), but only that portion of the claim arising within such period shall be recoverable hereon. The commencement of a voyage shall not be so fixed as to overlap another voyage on which a claim is made on this or the preceding Policy.

Should the Vessel at the expiration of this Policy be at sea, or in distress, or at a port of refuge or of call, she shall, provided previous notice be given to the Underwriters, be held covered at a pro rata monthly premium to her port of destination.

Should the Vessel be sold or transferred to other ownership, then, unless the Underwriters agree in writing to such sale or transfer, this Policy shall thereupon become cancelled from date of sale or transfer, unless the Vessel has cargo on board and has already sailed from her loading port, or is at sea in ballast, in either of which cases such cancellation

shall be suspended until arrival at final port of discharge if with cargo, or at port of destination if in ballast. A pro rata daily return of premium shall be made.

Notwithstanding anything herein contained to the contrary, this policy is warranted free of capture, seizure, arrest, restraint, or detainment, and the consequences thereof or of any attempt thereat (piracy excepted) and also from all consequences of hostilities or warlike operations, whether before or after declaration of war.

To return { per cent for each uncommenced month if it be mutually agreed to cancel this Policy. / per cent for each consecutive days the Vessel may be laid up in port:— } and arrival.

A period in port falling between two insurances to be allowed pro rata on each, underwriters on each insurance agreeing to pay their pro rata proportion of the Return due.

In the event of accident whereby loss or damage may result in a claim under this Policy, notice shall be given to the Underwriters, where practicable, prior to survey, so that they may appoint their own Surveyor if they so desire; and whenever the extent of the damage is ascertainable, the majority (in amount) of the Underwriters may take or may require the Assured to take tenders for the repair of such damage. In cases where a tender is accepted by or with the approval of Underwriters, the Underwriters will make an allowance at the rate of 30 per cent per annum on the insured value for the time actually lost in waiting for tenders. In the event of the Assured failing to comply with the conditions of this clause, 15 per cent shall be deducted from the amount of the ascertained claim.

Held covered in case of any breach of warranty as to cargo, trade, locality, or date of sailing, provided notice be given, and any additional premium required be agreed immediately after receipt of advices of breach or proposed breach by owners.

Where the Assured has paid, or is liable for, any General Average contribution and the contributory value is greater than the insured value, the amount recoverable under this policy shall be only in the proportion that the amount insured hereunder bears to the contributory value and where the contributory value has been reduced by a Particular Average for which these Assurers are liable, the amount of Particular Average Claim under this policy shall be deducted from the amount insured under this policy in order to ascertain what share of the contribution is recoverable from these Assurers; the extent of the liability of these Assurers for salvage shall be computed on the same principle.

In event of non-payment of premium thirty days after attachment this policy may be cancelled by the Assurers upon five days' written notice being given the Assured.

No recovery for a Constructive Total Loss shall be had hereunder, unless the expense of recovering and repairing the vessel shall exceed the insured value.

In witness whereof, the said United States Merchants and Shippers Insurance Company caused this Policy to be signed by its President, but it shall not be valid until countersigned by Appleton & Cox, Inc., Attorney.

UNITED STATES MERCHANTS AND SHIPPERS INSURANCE COMPANY NEW YORK

By this Policy of Insurance

.....*ON ACCOUNT OF*.....

In case of loss to be paid in funds current in the City of New York, to
Do make insurance and cause to be insured, lost or not lost, at and from

upon all kinds of lawful goods and merchandises, laden or to be laden, on board

the good .....
whereof is master for this present voyage, or whoever else shall go for master in the said vessel, or by whatever other name or names the said vessel, or the master thereof, is or shall be named or called.

BEGINNING the adventure upon the said goods and merchandises, from and immediately following the loading thereof on board of the said vessel, at as aforesaid, and so shall continue and endure until the said goods and merchandises shall be safely landed at as aforesaid, and it shall and may be lawful for the said vessel, in her voyage, to proceed and sail to, touch and stay at any ports or places, if thereunto obliged by stress of weather or other unavoidable accident, without prejudice to this insurance.

The said goods and merchandises hereby insured, are valued (premium included) at

TOUCHING the adventures and perils which the said assurers are contented to bear, and take upon themselves in this voyage, they are of the seas, men-of-war, fires, enemies, pirates, rovers, assailing thieves, jettisons, letters of mart and countermart, reprisals, takings at sea, arrests, restraints and detainments of all kings, princes or people, of what nation, condition, or quality soever, barratry of the master and mariners, and all other perils, losses and misfortunes, that have or shall come to the hurt, detriment or damage of the said goods and merchandises, or any part thereof. And in case of any loss or misfortune, it shall be lawful and necessary to and for the assured,
factors, servants and assigns, to sue, labor and travel for, in and about the defense, safeguard and recovery of the said goods and merchandises or any part thereof, without prejudice to this insurance; nor shall the acts of the insured or insurers, in recovering, saving and preserving the property insured, in case of disaster, be considered a waiver or an acceptance of an abandonment; to the charges whereof the said assurers will contribute according to the rate and quantity of the sum herein insured; having been paid the consideration of this insurance, by the assured, or assigns, at and after the rate of

The assurers are to be entitled to premium at their usual rates on all shipments reported or not. It is warranted by the assured to report every shipment on the day of receiving advice thereof, or as soon thereafter as may be practicable, in default thereof this policy to be therafter null and void. The rate of premium to be fixed by the assurers at the time of the report.

AND in case of loss, such loss to be paid within thirty days after proof of loss and proof of interest in the said which, with all notices may be made to the attorneys, (the amount of any unpaid premiums and all other indebtedness of the assured being first deducted), but no partial loss or particular average shall in any case be paid, unless amounting to five per cent. Provided always, and

it is hereby further agreed, that if the said assured shall have made any other assurance upon the premises aforesaid, prior in day of date to this policy, then the said assurers shall be answerable only for so much as the amount of such prior assurance may be deficient towards fully covering the premises hereby assured; and the said assurers shall return the premium upon so much of the sum by them assured as they shall be, by such prior assurance, exonerated from. AND in case of any insurance upon the said premises subsequent in day of date to this policy, the said assurers shall nevertheless be answerable for the full extent of the sum by them subscribed hereto, without right to claim contribution from such subsequent assurers, and shall accordingly be entitled to retain the premium by them received, in the same manner as if no such subsequent assurance had been made. Other insurance upon the premises aforesaid, of date the same day as this policy, shall be deemed simultaneous herewith; and the said assurers shall not be liable for more than a ratable contribution in the proportion of the sum by them insured to the aggregate of such simultaneous insurance. IT IS ALSO AGREED, that the property be warranted by the assured free from charge, damage or loss, which may arise in consequence of a seizure or detention, for or on account of any illicit or prohibited trade, or any trade in articles contraband of war. AND warranted by the assured free from any liability for merchandise in the possession of any carrier or other bailee, who may be liable for any loss or damage thereto; and for merchandise shipped under a bill of lading containing a stipulation that the carrier may have the benefit of any insurance thereon; and that any insurance granted herein, shall not cover where any carrier or other bailee has insurance (whether prior or subsequent in date to this policy) which would attach if this policy had not been issued; and that any insurance against fire granted herein shall not cover where the assured has fire insurance (whether prior or subsequent in date to this policy), which would attach if this policy had not been issued.

Warranted not to abandon in case of capture, seizure or detention, until after condemnation of the property insured; nor until ninety days after notice of said condemnation is given to the assurers. Also warranted not to abandon in case of blockade, and free from any expense in consequence of capture, seizure, detention, or blockade, but in the event of blockade, to be at liberty to proceed to an open port and there end the voyage.

MEMORANDUM. It is also agreed, that dried beef, hams, bacon, firecrackers and other fireworks, saltpetre, hops, guano, rice, peas and beans, mats and matting, hay, flaxseed and seeds of all kinds, bleaching powders, soda ash, bi-carbonate of soda, sal soda, cream of tartar, burlaps, shoddy, Hessians, floor cloths, straw goods, iron of all kinds, wire of all kinds, tin plates, nails, steel and steel rails, madder, sumac, wicker and willow ware (manufactured or otherwise), salt, grain of all kinds, tobacco, Indian meal, fruits (whether preserved or otherwise), cheese, dry fish, vegetables and roots, rags, dye woods of all kinds, mahogany and other woods, hempen yarn, bags, cotton bagging, and other articles used for bags or bagging, pleasure carriages, household furniture and all house-furnishing articles, skins and hides, bristles, Tampico grass, musical instruments, looking glasses, and all other articles that are perishable in their own nature, are warranted by the assured free from average, unless general; hemp, flax, tobacco stems, cassia except in boxes, and oil cake, free from average under twenty per cent, unless general; and sugar and bread are warranted by the assured free from average under seven per cent, unless general; coffee in bags or bulk, pepper in bags or bulk, and cassia in boxes free from average under ten per cent, unless general.

Warranted by the insured, free from damage or injury from dampness, change of flavor or being spotted, discolored, musty or mouldy, except caused by actual contact of sea water with the articles damaged, occasioned by sea perils. In case of partial loss by sea damage to dry goods, cutlery or other hardware, the loss shall be ascertained by a separation and sale of the portion only of the contents of the packages so damaged, and not otherwise; and the same practice shall obtain as to all other merchandises, as far as practicable. Not liable for leakage of molasses or other liquids, nor for breakage, unless occasioned by stranding, or collision with another vessel.

In case of loss or injury to any part of a machine consisting when complete, for sale, or use, of several parts, the insurers shall only be liable for the insured value of the part lost or damaged.

In case of damage from perils insured against affecting labels only, loss to be limited to an amount sufficient to pay the cost of new labels and relabeling the goods, provided same amounts to a claim under the terms of the policy.

This policy to be deemed continuous and to cover as above, until discontinued by either party on giving the other ..... days' written notice, which, however, is not to affect any risk then pending.

If the voyage aforesaid shall have been begun and shall have terminated before the date of this policy, then there shall be no return of premium on account of such termination of the voyage.

In all cases of return premium, in whole or in part, one-half per cent upon the sum insured is to be retained by the assurers.

Warranted by the assured that the loading of vessels with grain or petroleum be made in accordance with the rules of the Board of Underwriters of New York, and a certificate of an inspector appointed by same, or of an inspector appointed by the assurers, be obtained before the sailing of the vessel.

Cargo on deck free from claims for loss by wet, breakage, leakage or exposure.

Warranted free of loss or damage caused by strikers, locked out workmen or persons taking part in labor disturbances or riots or civil commotions.

The assurers not to be liable under this policy for more than ..... by any one vessel or in any one place, at one time, unless otherwise agreed upon at the time of endorsement.

Proof of loss to be authenticated by the agent of the assurers, if there be one at the place such proofs are taken.

Warranted by the assured free from claim for loss or damage, which may be attributed to, or arise from, the act of any person acting or claiming to act, under authority from any country or people, in a state of war, (whether before or after declaration of war), revolution, or internal commotion, and also from all consequences of hostilities, civil commotions, riots and/or warlike operations, even if by lawless or unauthorized persons.

Warranted by the assured that this insurance shall not inure to the benefit of any carrier whatsoever.

In witness whereof, the United States Merchants and Shippers Insurance Commpany has caused this policy to be signed by its President, but it shall not be valid until countersigned by Appleton & Co., Inc., Attorney.

GENERAL AND PARTICULAR AVERAGE.

In marine insurance the term "Particular Average" is understood as meaning damage or loss, either to a vessel or to a cargo and freight, which is purely accidental in its nature, while the term "General Average" represents either some voluntary sacrifice, while in a dangerous position, of either the ship's materials or of cargo and freight, or expenditure incurred for the general benefit of the ship, freight and cargo. The principle involved in General Average is that parties interested in the ship, freight and cargo should bear proportionately the expense for sacrifice incurred during a time of peril for the

general good. The English law defines certain of the principal items of General Average, classifying them under the two general divisions of sacrifices and expenditures. In general, it is said that the practice prevailing at the port where the insurance terminates governs the adjustment of any loss, and many charter parties and bills of lading, etc., now contain a provision that General Average shall be adjusted according to York-Antwerp rules. The following are the more important items of sacrifices and expenditures listed under the English law:

SACRIFICES.

I.—*Loss of Cargo and Freight and Damage to Cargo.*

1. Loss of cargo and freight by jettison from under deck.
2. Loss of cargo and freight by jettison from the deck, when it can be shown that it is the invariable and well-known custom of the trade in which the vessel is at the time engaged to carry deck cargo.
3. Damage to cargo by water during jettison, or damage necessarily occasioned to cargo through jettison.
4. Damage done to packages of cargo which have themselves not been on fire, by water or other means used to extinguish fire on board.
5. Loss of cargo, and freight on cargo burnt as fuel for a steamer for general safety (where the original supply of coal on board the steamer was ample, with a fair margin, for the passage or part of passage on which the steamer was at the time engaged).
6. Loss of cargo, and freight on cargo burnt for fuel for donkey engine for pumping (on same consideration as cargo burnt for fuel for steamer).
7. Damage to or loss of cargo and or freight discharged or otherwise dealt with to float a vessel when stranded and in a position of peril and of subsequent reshipment.
8. Damage to or loss of cargo and freight in the act of discharge of cargo to lighten a ship in a port of refuge.
9. Damage to or loss of cargo and freight in the act of reshipment of cargo discharged in a port of refuge; only when the vessel put into the port to repair damage which is itself the consequence of a General Average act.

II.—*Ships' Materials.*

10. Masts, spars, sails, or rigging out away for the common safety.
11. Chains and anchors slipped from.
12. Damage to sails set to force a stranded ship off the ground, or to force her further on the ground for better safety.
13. Damage to ropes, winches, windlasses, boats, etc., used in the endeavor to float a stranded ship if in peril.
14. Damage to a steamer's machinery incurred in the endeavor to float a stranded ship when in a position of peril.
15. Coals and engine stores used in this endeavor.
16. Damage done to a ship in the endeavor to extinguish a fire, or to facilitate jettison.

EXPENDITURES.

17. Expenses incurred in floating a stranded ship if in peril.
18. Cost of salvage of ship cargo, either when picked up at sea, with or without agreement, or salved under contract when ashore.

(N. B.—The division of these expenses is not always on the same footing as an ordinary General Average, the values used being sometimes different.)

19. Inward expenses entering a port of refuge to repair damage.
20. Cost of discharging cargo at a port of refuge for the purpose of repairing the damage.
21. Cost of warehousing, warehouse rent on cargo, reshipment of cargo and outward expenses leaving the port of refuge; only when the cause of the vessel putting into port has been to repair damage which is itself the consequence of a General Average act.

The York-Antwerp Rules differ from English practice, chiefly in that jettison of deckload and freight thereon are not allowed as General Average, and that in addition to the expense at a port of refuge, inward charges and cost of discharging cargo, reshipping and outward expenses and wages and provisions of officers and crew, detention in the port of refuge and damage to cargo caused in the act of reshipment, are allowed in General Average.

THE YORK-ANTWERP RULES.

The following rules were the outgrowth of meetings of delegates from different countries at York in 1864, when rules were formulated which did not obtain general adoption, and a meeting at Antwerp in 1877, when such rules were amended, and have since been known as the York-Antwerp Rules:

RULE I.—JETTISON OF DECK CARGO.

No jettison of deck cargo shall be made good as general average.

Every structure not built in with the frame of the vessel shall be considered to be a part of the deck of the vessel.

RULE II.—DAMAGE BY JETTISON AND SACRIFICE FOR THE COMMON SAFETY.

Damage done to a ship and cargo, or either of them, by or in consequence of a sacrifice made for the common safety, and by water which goes down a ship's hatches opened, or other opening made, for the purpose of making a jettison for the common safety, shall be made good as general average.

RULE III.—EXTINGUISHING FIRE ON SHIPBOARD.

Damage done to a ship and cargo, or either of them, by water or otherwise, including damage by beaching or scuttling a burning ship, in extinguishing a fire on board the ship, shall be made good as general average; except that no compensation shall be made for damage to such portions of the ship and bulk cargo, or to such separate packages of cargo, as have been on fire.

RULE IV.—CUTTING AWAY WRECK.

Loss or damage caused by cutting away the wreck or remains of spars or of other things which have previously been carried away by sea peril shall not be made good as general average.

RULE V.—VOLUNTARY STRANDING.

When a ship is intentionally run on shore and the circumstances are such that if that course were not adopted she would inevitably sink or drive on shore or on rocks, no loss or damage caused to the ship, cargo and freight, or any of them, by such intentional running on shore, shall be made good as general average. But in all other cases where a ship is intentionally run on shore for the common safety, the consequent loss or damage shall be allowed as general average.

RULE VI.—CARRYING PRESS OF SAIL. DAMAGE TO OR LOSS OF SAILS.

Damage to or loss of sails and spars, or either of them, caused by forcing a ship off the ground or by driving her higher up the ground, for the common safety, shall be made good as general average; but where a ship is afloat, no loss or damage caused to the ship, cargo and freight, or any of them by carrying a press of sail shall be made good as general average.

RULE VII.—DAMAGE TO ENGINES IN REFLOATING A SHIP.

Damage caused to machinery and boilers of a ship which is ashore and in a position of peril, in endeavoring to refloat, shall be allowed in general average when shown to have arisen from an actual intention to float the ship for the common safety at the risk of such damage.

RULE VIII.—EXPENSES OF LIGHTENING A SHIP WHEN ASHORE AND CONSEQUENT DAMAGE.

When a ship is ashore and, in order to float her, cargo, bunker coals and ship's stores, or any of them, are discharged, the extra cost of lightening, lighter hire, and reshipping, if incurred), and the loss or damage sustained thereby, shall be admitted as general average.

RULE IX.—CARGO, SHIP'S MATERIALS AND STORES BURNT FOR FUEL.

Cargo, ship's materials, and stores, or any of them, necessarily burnt for fuel for the common safety at a time of peril, shall be admitted as general average when, and only when, an ample supply of fuel has been provided; but the estimated quantity of coals that would have been consumed, calculated at the price current at the ship's last port of departure at the date of her leaving, shall be charged to the shipowner and credited to the general average.

RULE X.—EXPENSES AT PORT OF REFUGE, ETC.

Expenses at Port of Refuge, etc.

(a) When a ship shall have entered a port or place of refuge, or shall have returned to her port or place of loading in consequence of accident, sacrifice, or other extraordinary circumstances, which render that necessary for the common safety, the expenses of entering such port or place shall be admitted as general average; and when she shall have sailed thence with her original cargo, or a part of it, the corresponding expenses of leaving such port or place, consequent upon such entry or return, shall likewise be admitted as general average.

(b) The cost of discharging cargo from a ship, whether at a port or place of loading, call, or refuge, shall be admitted as general average, when the discharge was necessary for the common safety or to enable damage to the ship, caused by sacrifice or accident during the voyage, to be repaired, if the repairs were necessary for the safe prosecution of the voyage.

(c) Whenever the cost of discharging cargo from a ship is admissible as general average, the cost of reloading and storing such cargo on board the said ship, together with all storage charges on such cargo, shall likewise be so admitted. But when the ship is condemned, or does not proceed on her original voyage, no storage expenses incurred after the date of the ship's condemnation or of the abandonment of the voyage, shall be admitted as general average.

(d) If a ship under average be in a port or place at which it is practicable to repair her, so as to enable her to carry on the whole cargo, and if in order to save expenses, either she is towed thence to some other port or place of repair or to her destination, or the cargo or a portion of it is transhipped by another ship, or otherwise forwarded, then the extra cost of such towage, transhipment and forwarding, or any of them (up to the amount of the extra expense saved), shall be payable by the several parties to the .dventure in proportion to the extraordinary expense saved.

RULE XI.—WAGES AND MAINTENANCE OF CREW IN PORT OF REFUGE, ETC.

When a ship shall have entered or been detained in any port or place under the circumstances, or for the purpose of the repairs, mentioned in Rule X., the wages payable to the master, officers and crew, together with the cost of maintenance of the same, during the extra period of detention in such port or place, until the ship shall or should have been made ready to proceed upon her voyage, shall be admitted as general average. But when the ship is condemned or does not proceed on her original voyage, the wages and maintenance of the master, officers and crew incurred after the date of the ship's condemnation or of the abandonment of the voyage, shall not be admitted as general average.

RULE XII.—DAMAGE TO CARGO IN DISCHARGING, ETC.

Damage done to or loss of cargo necessarily caused in the act of discharging, storing, reloading and stowing, shall be made good as general average, when and only when the cost of those measures respectfully is admitted as general average.

RULE XIII.—DEDUCTIONS FROM COST OF REPAIRS.

In adjusting claims for general average, repairs to be allowed in general average shall be subject to the following deductions in respect of "new for old," viz.:

In the case of iron or steel ships from date of original register to the date of accident—

Up to 1 Year Old (A)—All repairs to be allowed in full, except painting or coating of bottom, from which one-third to be deducted.

Between 1 and 3 Years (B)—One-third to be deducted off repairs to and renewal of woodwork of hull, masts and spars, furniture, upholstery, crockery, metal and glassware; also sails, rigging, ropes, sheets and hawsers (other than wire and chain), awnings, covers and painting; one-sixth to be deducted off wire rigging, wire ropes and wire hawsers, chain cables and chains, donkey engines, steam winches and connections; other repairs in full.

Between 3 and 6 Years (C)—Deductions as above under Clause (B), except that one-sixth be deducted off ironwork of masts and spars, and machinery (inclusive of boilers and their mountings).

Between 6 and 10 Years (D)—Deductions as above under Clause (C), except that one-third be deducted off ironwork of masts and spars, repairs to and renewal of all machinery (inclusive of boilers and their mountings), and all hawsers, ropes, sheets and rigging.

Between 10 and 15 Years (E)—One-third to be deducted off all repairs and renewals, except iron-

work of hull and cementing and chain cables, from which one-sixth to be deducted; anchors to be allowed in full.

Over 15 Years (F)—One-third to be deducted off all repairs and renewals, anchors to be allowed in full; one-sixth to be deducted off chain cables.

Generally (G)—The deductions (except as to provisions and stores, machinery and boilers) to be regulated by the age of the ship, and not the age of the particular part of her to which they apply; no painting bottom to be allowed if the bottom has not been painted within six months previous to the date of accident; no deduction to be made in respect of old material which is repaired without being replaced by new, and provisions and stores which have not been in use.

In case of wooden or composite ships: When a ship is under one year old from date of original register, at the time of accident, no deduction new for old shall be made. After that period a deduction of one-third shall be made, with the following exceptions:

Anchors shall be allowed in full; chain cables shall be subject to a deduction of one-sixth only.

No deduction shall be made in respect of provisions and stores which had not been in use.

Metal sheathing shall be dealt with by allowing in full the cost of a weight equal to be the gross weight of metal sheathing stripped off, minus the proceeds of the old metal. Nails, felt and labor metalling are subject to a deduction of one-third.

In the case of ships generally: In the case of all ships, the expense of straightening bent iron-work, including labor of taking out and replacing it, shall be allowed in full.

Graving dock dues, including expenses of renewals, cartages, use of shears, stages, and graving dock materials, shall be allowed in full.

RULE XIV.—TEMPORARY REPAIRS.

No deductions "new for old" shall be made from the cost of temporary repairs of damage allowable as general average.

RULE XV.—LOSS OF FREIGHT.

Loss of freight arising from damage to or loss of cargo shall be made good as general average, either when caused by a general average act, or when the damage to or loss of cargo is so made good.

RULE XVI.—AMOUNT TO BE MADE GOOD FOR CARGO LOST OR DAMAGED BY SACRIFICE.

The amount to be made good as general average for damage or loss of goods sacrificed shall be the loss which the owner of the goods has sustained thereby, based on the market values at the date of the arrival of the vessel or at the termination of the adventure.

RULE XVII.—CONTRIBUTORY VALUES.

The contribution to a general average shall be made upon the actual values of the property at the termination of the adventure, to which shall be added the amount made good as general average for property sacrificed; deduction being made from the shipowner's freight and passage money at risk of such port charges and crew's wages as would not have been incurred had the ship and cargo been totally lost at the date of the general average act or sacrifice, and have not been allowed as general average; deduction being also made from the value of the property of all charges incurred in respect thereof subsequently to the general average act, except such charges as are allowed in general average. Passengers' luggage and personal effects, not shipped under bill of lading, shall not contribute to general average.

RULE XVIII.—ADJUSTMENT.

Except as provided in the foregoing rules, the adjustment shall be drawn up in accordance with the law and practice that would have governed the adjustment had the contract of affreightment not contained a clause to pay general average according to these rules.

American Institute's Cargo Policy

The form of cargo policy presented herewith has been prepared and approved by the American Institute of Marine Underwriters, with a view to securing a greater degree of uniformity in marine underwriting. On the back of the policy two clauses are printed, as follows:

AMERICAN INSTITUTE EXPLOSION CLAUSE, 1922

This policy includes the risk of loss or damage caused by explosion, whether occurring on shore or otherwise, always excepting loss or damage caused by mines, war risks or other risksk expressly excluded by any warranty in this policy.

AMERICAN INSTITUTE WAREHOUSE CLAUSE, 1922

This insurance is hereby extended to cover, subject to the terms of this policy, from the time of leaving the shippers' or manufacturers' warehouse, store or factory and covers continuously thereafter, while in ordinary course of transit, and while at risk of the assured, until safely delivered at warehouse or store at destination, including transshipment, if any, but only at and between the places as stated in this policy, including risk while on docks, wharves, quays, or in lighters, and in Appraiser's store and/or Custom House for examination, but not to cover in any other store or warehouse; Provided, nevertheless, that on all shipments destined to ports and/or places on the River Plate, the risk under this policy shall cease upon arrival of the goods at any shed (transit or otherwise), store, custom house, or warehouse, or upon the expiry of ten days subsequent to the landing of the goods, whichever may first occur.

POLICY OF INSURANCE

$_____ No. _____

BLANK INSURANCE COMPANY

Place and Date _____

This Policy of Insurance, Witnesseth, that on _____ and in consideration of premiums as agreed to be paid, these Assurers did make Insurance and cause _____ to be Insured, lost or not lost, for account of whom it may concern,

In the sum of _____ Dollars

On _____

Valued (premium included) at _____

Shipped on Board _____ At and From _____

To _____

Loss, if any, Payable to _____ or Order, upon surrender of this Policy, without deduction (as against purchasers or pledgees of the goods) for unpaid premiums, and when so paid liability under this insurance is discharged.

1. Beginning the adventure upon the said goods and merchandise from and immediately following the loading thereof on board the said vessel, at..port of shipment as aforesaid, unless an earlier time of attachment has been agreed upon in writing hereon, and so shall continue and endure until the said goods and merchandise shall be safely landed at port of destination as aforesaid, and for any further time which may be agreed upon in writing hereon. And it shall and may be lawful for the said vessel in her voyage, to proceed and sail to, touch and stay at, any ports or places, if customary, or if thereunto obliged by stress of weather or other unavoidable accident, without prejudice to this insurance.

2. Touching the adventures and perils which these Assurers are contented to bear and do take upon themselves in this voyage, they are of the seas, fire, pirates, rovers, assailing thieves, jettisons, criminal barratry of the master and mariners, and all other like perils, losses and misfortunes, that have or shall come to the hurt, detriment or damage of the said goods and merchandise, or any part thereof.

3. Except as otherwise stated hereon in writing, this insurance is warranted free of Particular Average unless the vessel or craft be stranded, sunk, or burnt, but notwithstanding this warranty the Assurers are to pay the insured value of any package or packages which may be totally lost in loading, transhipment, or discharge, also for any loss of or damage to the interest insured which may reasonably be attributed to fire, collision or contact of the vessel and/or craft and/or conveyance with any external substance (ice included) other than water, or to discharge of cargo at ports of distress, also to pay landing, warehousing, forwarding and special charges, if incurred, for which Underwriters would be liable under a policy covering Particular Average.

4. Grounding in Canals, Harbors or Tidal Rivers not to be deemed a stranding within the meaning of this policy or any amendment thereof, but the Assurers to pay any damage or loss which may be proved to have resulted therefrom and which would be recoverable if caused by stranding.

5. General Average and Salvage Charges payable according to Foreign Statement or per York-Antwerp Rules if in accordance with the contract of affreightment.

6. No risk on shore is covered by this policy unless expressly assumed in writing hereon. If this policy shall be extended to cover goods on land conveyances or elsewhere on shore, such goods (unless otherwise expressly stated hereon) are covered only against the risks of fire, collision and derailment while on land conveyances; and while on docks or elsewhere on shore, only against the risks of fire and flood (meaning the rising of navigable waters).

7. In case of any loss or misfortune, it shall be lawful and necessary to and for the Assured, his or their factors, servants and assigns, to sue, labor and travel for, in and about the defense, safeguard and recovery of the said goods and merchandise, or any part thereof, without prejudice to this insurance, to the charges whereof these Assurers will contribute according to the rate and quantity of the sum insured hereunder; nor shall the acts of the Assured or Assurers, in recovering, saving and preserving the property insured, in case of disaster, be considered a waiver or an acceptance of an abandonment.

8. In case the interest hereby insured is covered by other insurance (except as hereinafter provided) the loss shall be collected from the several policies in the order of the date of their attachment, insurance attaching on the same date to be deemed simultaneous and contribute pro rata; *Provided, nevertheless,* that where any fire insurance, or any insurance (including fire) taken out by any carrier or bailee is available to the beneficiary of this policy, or would be so available if this insurance did not exist, then this insurance shall be void to the extent that such other insurance is or would have been available; but in such cases these Assurers shall receive and retain the premium payable under this policy and, in consideration thereof, shall guarantee the solvency of the companies and/or underwriters who issued such other insurance and the prompt collection of the loss thereunder to the same extent (only) as this insurance shall have become void under the terms of this clause, but not exceeding, in any case, the amount which would have been collectible under this policy if such other insurance did not exist.

9. Warranted that this insurance shall not inure, directly or indirectly, to the benefit of any carrier or bailee.

10. Warranted free of loss, damage or expense arising from capture, seizure, arrest, restraint or detention, or the consequences thereof or any attempt thereat, and whether as an act of war or by civil authority or by any person or persons whatsoever, lawless or otherwise, piracy excepted, and also free from all consequences of hostilities or warlike operations, whether before or after declaration of war.

11. Warranted free from any charge, damage or loss, which may arise in consequence of a seizure or detention for or on account of any illicit or prohibited trade, or any trade in articles contraband of war, or the violation of any port regulation.

12. Warranted not to abandon in case of blockade, and free from any expense in consequence thereof, but in the event of blockade to be at liberty to proceed to an open port and there end the voyage.

13. Warranted free of loss, damage or expense caused by strikers, locked-out workmen, or persons taking part in labor disturbances, or riots or civil commotions.

14. Warranted free of loss, damage or expense due to floating and/or stationary and/or submerged mines or torpedoes.

15. Warranted free of claim for loss of market or for damage or deterioration arising from delay, whether such delay be caused by a peril of the sea or otherwise, unless such risks are expressly assumed in writing hereon.

16 Warranted free from damage or injury from dampness, change of flavor, or decay, or from being spotted, discolored, musty or mouldy, unless caused by actual contact of sea water with the articles damaged, occasioned by sea perils; also warranted free of any claim for losses arising from breakage and/or leakage and/or loss of weight and/or loss of contents unless caused by stranding, or collision with another vessel. The liability of these Assurers for losses of the classes mentioned in the foregoing sentence shall also be subject to, but shall not be deemed enlarged or extended by, any provisions of this policy or any amendment thereof defining the liability (or excluding liability) of these Assurers for particular average losses.

17. In all cases of damage caused by perils insured against, the loss shall, as far as practicable, be ascertained by a separation and a sale or appraisement of the damaged portion only of the contents of the packages so damaged, and not otherwise.

18. In case of loss or damage to any part of a machine consisting, when complete for sale or use of several parts, these Assurers, if liable therefor under the terms of this policy, shall only be liable for the proportion of the insured value applicable to the part lost or damaged.

19. In case of damage affecting labels, capsules, or wrappers, these Assurers, if liable therefor under the terms of this policy, shall be liable only for an amount sufficient to pay the cost of new labels, capsules or wrappers, and the cost of reconditioning the goods.

20. Merchandise or other interests hereby insured are understood to be under deck unless otherwise expressly stated hereon.

21. If the voyage aforesaid shall have been begun and shall have terminated before the date of this policy, there shall, nevertheless, be no return of premium on account of such termination of the voyage.

22. It is agreed that upon the payment of any loss or damage, these Assurers are to be subrogated to all the rights of the Assured arising out of such loss or damage.

1. In case of General Average and/or Salvage, the liability of these Assurers shall in no event exceed such proportion thereof as the amount hereby insured (after deducting any sums paid by or due from these Assurers for particular average) bears to the contributory value of the insured property.
2. This Insurance shall not be avoided by deviation, overcarriage, change of voyage or any error or unintentional omission in the description of the interest, vessel or voyage, provided same be communicated to the Assurers as soon as known to the Assured, and an additional premium paid if then or later required.
3. Including (subject to all the terms hereof) transit to and from the vessel by craft and/or lighter to be deemed a separate insurance, within the meaning of Particular Average warranties. The Assured not to be prejudiced by any agreement exempting lightermen from liability.

4. The presence of the negligence clause and/or latent defect clause in the Bills of Lading and/or Charter Party and/or Contract of affreightment shall not prejudice this insurance as between the Assured and Assurers. If the Assured is owner of the vessel, as between the Assured and Assurers, unless the vessel is chartered or owned (in whole or in part) of the vessel, or is chargeable with some fault or negligence contributing to the unseaworthiness of the vessel.
5. Warranted that vessels to be loaded with full cargoes of grain for Foreign Ports are to be loaded under the inspection of the Surveyor of the Board of Underwriters, or of a Surveyor appointed by the Assurers, and his certificate as to their proper loading and seaworthiness obtained, or the insurance under this policy to be void.

MARKS AND NUMBERS | SPECIAL CLAUSES

Losses to be adjusted according to the usages of Lloyds, but subject to the conditions of this policy; and to be paid in thirty (30) days after sufficient proof of loss and of interest in the property insured, and adjustment, are submitted to these Assurers.

It is especially understood and agreed that any loss of or damage to the interest hereby insured must be promptly reported to the agent of the Assurers, and such agent must be represented on all surveys and must approve all proofs of loss and bills of expense. If there be no such agent at or near the port or place where the loss is discovered or the expenses are incurred, then such report must be made to the representative of the Board of Underwriters of New York (or to Lloyd's Agent if nearer to such port or place) and his approval obtained as above.

NOTICE—To conform with the Revenue Laws of Great Britain, in order to collect any claim under this policy, it must be stamped within ten days after its receipt in the United Kingdom.

CHILE.

A bill affecting foreign fire insurance companies transacting business in Chile was passed by the National Congress, and went into effect in December, 1905. The bill divides fire companies into first and second class, those with a capital of 500,000 pesos ($182,500) and those with a capital of less than that sum. In estimating the capital of a company the reserve and accumulated funds will be considered as capital. Fire companies of the first class will be required to deposit 300,000 pesos ($109,500), and those of the second class 200,000 pesos ($73,000). Companies insuring against maritime and agricultural risks exclusively will be required to deposit 50,000 pesos ($18,250). The deposits may be invested in unencumbered real estate in Chili, in currency or sterling, or in bonds of institutions accepted by the President of the Republic.

TAXES PAID BY FIRE INSURANCE COMPANIES IN 1923

Below will be found a tubulation showing the net premiums written in 1923 by the stock fire insurance companies transacting business in Connecticut, embracing most of the important companies doing business in the United States, together with the taxes paid by such companies, and ratios showing the percentages of taxes to premiums for the respective companies. This tabulation shows the heavy burden of taxation which is imposed upon fire insurance companies throughout the country by State, county and municipal governments. Included in the taxes are taxes on real estate, State taxes on premiums, Insurance Department licenses and fees, Federal taxes, franchise taxes, municipal taxes and fees, personal property taxes, and fire department, patrol and salvage corps assessments and taxes. The fire department taxes are levied by the State, while the fire patrol assessments, though for the public good, are voluntarily contributed by the companies.

INSURANCE CLASSES

UNIVERSITIES, COLLEGES AND INSURANCE SOCIETIES CONDUCTING INSURANCE EDUCATIONAL COURSES

The growing importance of insurance, in its numerous and varied phases, in the economic progress of the country, is yearly becoming better recognized by educators and others outside of the insurance business. This is apparent from the number of insurance study courses which have been established by universities, colleges, societies, etc.

While some of the courses are conducted by insurance societies, mostly co-operating with the Insurance Institute of America, a considerable number of others are conducted by State and other universities and colleges, with which the insurance course constitutes but one feature of their curricula. The addition of special courses relating to insurance has been, to a large extent, a recent development; but more centers of learning are adding such courses yearly.

The Institute was organized at Philadelphia in April, 1909. Its activities are educational. Definite courses of instruction, with examinations, covering three years have been established in the fire, casualty and marine branches of the insurance business. It is hoped to develop a life branch. The marine branch was initiated in 1924. Examinations were held in May, 1924, at the following centers: Altoona, Pa.; Atlanta, Ga.; Baltimore, Md.; Boston, Mass.; Brazil, Indiana; Catskill, N. Y.; Chicago, Ill.; Cleveland, Ohio; Crooksville, Ohio; Edgerton, Wis.; Fitchburg, Mass.; Forty Fort, Pa.; Gloversville, N. Y.; Greensboro, N. C.; Hartford, Conn.; Honolulu, Hawaii; Indianapolis, Ind.; Los Angeles, Cal.; Manchester, N. H.; Manitoba, Canada; Memphis, Tenn.; New York City; New Haven, Conn.; Owatonna, Minn.; Philadelphia, Pa.; Pulaski, Va.; Raleigh, N. UNDERWRITERS' ORGANIZATIONS

Below is presented a list of National and State organizations of fire underwriters and the names of their chief officers; also the names of the officers of the local boards in many of the more important cities. To give the list of all boards in the country would require more space than we have at our disposal. The following list has been corrected especially for THE INSURANCE YEAR BOOK.

National organizations are given first; then follow sectional associations, and then those of States, arranged alphabetically. The local boards are arranged under their respective States. A list of Fire Insurance Rating Bureaus is presented separately.

FIRE INSURANCE RATING BUREAUS

Below will be found a list of organizations engaged in the making of rates for fire insurance. They are divided into two general divisions, viz.: sectional, and State or local. A sectional organization, such, for example, as the South-Eastern Underwriters Association, may have general jurisdiction over several States, in each of which a State bureau may be directly in charge of the preparation of rates. The Fire Underwriters Rating Bureau Map of the United States, published by The Spectator Company, New York, shows graphically the territory under the jurisdiction of each of the respective rating bureaus, with the name and location of the latter.

GROUPS OF INSURANCE COMPANIES

Below will be found lists of insurance companies, including in some instances fire, marine and casualty companies, which are under the same management or control. Such relationships are due to various circumstances, in some cases the same parties being common managers for several companies, as with certain groups of foreign companies; in other cases a foreign company (at its home office, abroad) may own a large or controlling interest in the stock of another foreign company operating in the United States, or of an American company; while between some American companies there exists a common interest by reason of the ownership of stock in such different companies by the same individuals. Again, a foreign company operating in this country may control another foreign company licensed here, which in turn, through its home office, owns control of one or more American companies.

In some of these varying ways the companies embraced in the following groups are connected or in a measure identified with each other; though it is often true that a company that is owned or controlled by or in the interest of another company is conducted along absolutely independent lines.

Numerous companies are also interested as sole or joint guarantors of policies of underwriters' agencies, of which a list is presented elsewhere in this book. A list of companies (alphabetically arranged) guaranteeing underwriters' agency policies will be found following the list of Groups of Insurance Companies.

The groups are listed alphabetically under arbitrary titles, which latter are intended to indicate the most important or parent company in, or the managers of, a given group, in order to facilitate location and identification:

DIRECTORY OF INSURANCE AGENTS

The Value of HARTFORD Protection—

THROUGH national advertising and the educational work being carried on by Hartford field men and Hartford local representatives the property owners of America are being taught to appreciate the unusual value of the protection offered them by the Hartford Fire Insurance Company.

Individuals who are responsible for the insurance protection of valuable properties appreciate the "loss prevention" service that is given by Hartford engineers and realize that there is no more certain indemnity than that which the Hartford offers.

INSURANCE AGENTS

A DIRECTORY OF AGENTS REPRESENTING ALL BRANCHES OF INSURANCE IN THE PRINCIPAL CITIES AND TOWNS OF THE UNITED STATES AND CANADA

EXPLANATION: In this Directory the letters following the names denote the specialty of the agent, viz.: f—Fire, l—Life, c—Casualty. The term casualty applies to personal accident insurance, plate glass, steam boiler, burglary, and in fact to all classes of insurance indemnifying for casualties or accidental injuries to persons or property. See also department containing names and addresses of General and Special Agents of the various companies.
